

HEALTH & SAFETY POLICY

Our employees are of paramount importance.

Their safety and health demands at least the same degree of attention and emphasis as that placed on our mainstream activity that encompasses quality, proficiency, efficiency, environmental and financial awareness. We also recognise our responsibilities for the health and safety of others who may be affected by our activities.

It is our aim to achieve a working environment that is free of work related accidents and ill health and to this end we will pursue continuing improvements from year to year.

The company is committed to maintaining registration to OHSAS 18001 Occupational health and safety Management Systems and has established procedures for identifying health risks generated by the company's activities. Those risks identified as significant have been assigned objectives and targets, which are reviewed on a regular basis as part of the company's commitment to continual improvement.

The company is committed to comply with current applicable legislation and other policy and codes of practice the company subscribe to.
